Topics

The purpose of this meeting was to present the project vision and latest status of openPASS to NHTSA Research. NHTSA does not endorse any product.

Presentation of openPASS

The openPASS Working Group has presented the idea of openPASS.

Examples of some NHTSA Use Cases

Comparing simulators minimum elements to describe a scenario. Ideally, an open language (such as OpenSCENARIO/ DRIVE) could be used so that they can be shared amongst simulators. Also checking simulation output to verify that scenarios were ran as prescribed.

There will be a follow-up meeting in the end of April.
