- Ulrich Wierl AUDI AG
- Evgen Zemskyi AUDI AG

The following members were absent:

- Jan Blockx (Siemens AG)
- Matthias Ebeling (Daimler AG)
- Stefan Wartini (Müller-BBM VibroAkustik Systeme GmbH)
- Angelika Wittek (openMDM Toolkit Manager)

Topics

New participants

We welcomed the new AC participants from AUDI with a short introduction.

Dev Team

M. Koller reported the status of the dev team:

- openMDM is running in GlassFish 5.
- MTU has a new feature request which will be implemented by Peak. They would like to get an overview over large datasets by dividing the dataset into chunks. For each chunk some statistics (min, max, avg) should be calculated. The number of chunks can be configured in the request.

Election of the AC chair

We need to elect the chair for the next season. Currently only one candidate is available: S. Ebeling.

Only a few members joined this call. That's why we decided to give all AC members the chance to vote via email. Please send an email to Ralph (ralph.mueller@eclipse-foundation.org) with your vote.

Next call

The next AC call is scheduled for August 9th 2019.
