Look at what Jubula can do now!

Alexandra Schladebeck,

BREDEX GmbH
What is Jubula?

- Automated functional testing through the GUI
- Not capture-replay
- Without coding
- Support for structure, reusability → maintainability

- Test creation, execution, analysis
  Swing, SWT/RCP/GEF, HTML…
Current flavours

Jubula

► Feature
  Swing, SWT/RCP
  Embedded Agent
  Core functions

► Standalone
  +HTML
  + command line tools

GUIDancer

► Standalone
  +iOS, .NET
  +BIRT, Dashboard
  +Mylyn, CodeCoverage
Current flavours

Jubula

- Feature
  - Swing, SWT/RCP
  - Embedded Agent
- Core functions
  - Standalone
    - + HTML
    - + command line tools

GUIdancer

- Standalone
  - + iOS, .NET
  - + BIRT, Dashboard
  - + Mylyn, CodeCoverage
Standalone versions feature-identical

- **Jubula Feature remains**
  Add more installable features

- **Jubula and GUIDancer standalones**
  Completely identical except for branding
  Open source GUIDancer code

- **New Testing Resources Portal**
  Software, Examples, FAQs, Articles, …

http://testing.bredex.de
A day in the life…
Test result analysis with the help of BIRT and the Dashboard
Test analysis with the assistance of JaCoCo

Use Mylyn to work on test specification

And more coolness…
Write and run some iOS tests
