

Eclipse Automotive IWG Telco 21.03.2012 WP5

Oscar Slotosch, Validas

Gaël Blondlle, Obeo

Pascal Dolhagaray, See4sys

Mario Driussi, Das Virtuelle Fahrzeug Forschungsgesellschaft mbH

Peter Reichenpfader Das Virtuelle Fahrzeug Forschungsgesellschaft mbH

Minutes of Meeting

- Oscar Slotosch / Validas
Presentation: Proposal for a Roadmap towards Development of Qualifiable Eclipse Tools - First results in the field of requirements engineering
- Mario Driussi / virtual vehicle: Crystal Project (Artemis) deadline for project proposal August 2012; if it's necessary to get (research) fund, and we are enough companies, we can contact Mr. Affenzeller from the AVL (ProjectCoordinator), to get/define a (sub-) work package in the project.
- Assistance, support, commitment. At the moment only Validas and the virtual vehicle have agreed to contribute the Roadmap in WP5.
At all interested parties:
Please join us in the next Webex Session on April and talk with us about "Tool Classification Kit" for Eclipse. (all)
- Better communication -> Outlook appointment with the Webex link inside (M.Driussi)
- New documents on the website:
