In this 2-day workshop the WG members discussed the long-term goals of openPASS. Each partner prepared their own goals and presented them on the workshop. Each presentation can be found [here](#). At the end of the presentations the WG discussed whether a goal is achievable and realistic towards version 1.0 or beyond. A rough estimation of the WG of the release date for a version 1.0 based on the previous development speed is middle of 2022. For a better overview the goals were categorized and the result of the discussion on the prioritization can be found [here](#).
