The openPASS WG has met to consolidate the issues in simopenpass. The discussions and results can be found there:

https://gitlab.eclipse.org/eclipse/simopenpass/simopenpass/-/issues/?sort=created_asc&state=opened&first_page_size=100

To classify the issues the WG agreed on the following:
Weight 1 means that the issue will be solved in the short term.
Weight 2 means that the issue will be solved in the mid term.
Weight 3 means that the issue will be solved in the long term.

To keep up with the short release cycles only issues which are right before a release will be tagged with an according version number.

There will be a 1.5 hour follow up on the 9th of January 2023.
