openPASS AC webcon - 23.05.2019

Mittwoch, 22. Mai 2019   11:52

Meeting Date: 23.05.2019 14:00
**Location:** Skype Meeting
Participants

- Findling Katharina, FG-410
- Das Arun, FG-410
- Daniel.Schmidt6@de.bosch.com
- jan.dobberstein@daimler.com
- Stark, Lukas (K-GERFK/U) VW GoA
- Angelika Wittek
- Per.Lewerenz@Daimler.com
- Gottwald Fabian (EDAG)

Notes

- Current status Release 0.6
  - Further adjustments ongoing
  - Timeline: as already communicated - one month delay, pull request end of June

  - It should also be possible to setup a simulation with agents, configured with appConfig and systemConfig
  - GUI: bugfixing ongoing, configuration of agents ongoing
    --> Bugfixing commit via gerrit
  - Config Files -> as soon as they are final, a config set will be distributed
- Default project directory
  - Dependency between two plugins: system and project plugin
    --> Data exchange
    --> In project plugin a default path is set
  - Do we need such plugin to set dafault working directory, where all inputs and outputs are saved?
  - Suggestions?
- Further topics
  - Jenkins: Eclipse bugzilla -> a bug should be created for Jenkins instance request (Katharina)
  - Training Eclipse Developement Process: Angelika/Katharina will organize a meeting
  - Call for topics for Architecture Committee meeting in July (All)
  - Toyota input is important for our further development
  - Driver model:
    - Jan will create 2 epics/(user stories)
    - BMW will investigate what is missing in OSI/world -> what are the requirements, what are the use cases?
  - Short status update for GUI Refinement meeting on 07.05.2019 (discussions ongoing). Results will be shown as soon as the refinement is completed .
