Product Management Committee – Stephan Thesing/Charles Rivet

- Logo contest completed successfully
 - o ... and the winner is

- o The Papyrus IC now has its own logo!
- Papyrus IC domain name
 - o www.papyrus-ic.org has been registered
- Papyrus IC website
 - o Content of website to be defined next
 - o Basic line: www.papyrus-ic.org main entry point for end-users and Papyrus based products
 - o Plan in progress
 - o First version to be launched in June?
- Product assessment/testing
 - o Approach to assess maturity/usability/stability of different products (platform, SE, RT, ...) is being discussed
 - o Idea is management of development for industry-strength products
 - o Member organizations have committed to contribute to the definition of the overall QA/testing process and to the testing of Papyrus 2.0 (and Papyrus and other related components in general)
- Upcoming June releases
 - o Papyrus for Information Modeling (1.0?)
 - Product Owner: Philip Langer (EclipseSource)
 - This is a major milestone as it is the first Papyrus solution/product funded by the Papyrus IC
 - First official version of Papyrus customized and packaged for specific subset of UML
 - Should satisfy the basic needs of several user groups, including SDO's (TM Forum, MEF, ONF, ITU), space (Airbus Helicopters, Airbus Defence & Space, Spacebel), and many others
 - o Papyrus 2.0
 - Product Owner: Sébastien Gérard (CEA)
 - Will be properly tested by Papyrus IC members before being officially endorsed as "industry ready" by the Papyrus IC
 - Progressing well, but hasn't reach the required level of stability yet
 - It is a top responsibility of the Papyrus IC to ensure industrial quality!
 - o Papyrus-RT 1.0
 - Product Owner: Charles Rivet (Zeligsoft)
 - First official release of Papyrus-RT
 - Plan for 1.1 and 1.2 will be communicated in the near future
 - o Work on xtUML and UML-RT is still ongoing

Architecture Committee – Remi Schnekenburger/Reibert Arbring

- Discussions around tools for testing
 - o SWTBot: ~developer-based test developments
 - o RCPTT: ~end user oriented
- Papyrus Neon – release train
 - o Release candidate phase (bug fixing)
 - o Late issues found on the GMF runtime (due to Eclipse platform update) and GMF tooling (lack of contributions)
- Roadmap for Neon.1/2/3 & Oxygen
 - o Stabilization and usability
 - o Open question on means to track usability improvements
- As a side note, I have to find an alternative as chairman for the architecture committee meetings, as I may be out of office any time soon, and also to manage vacation time.

Research/Academia Committee – Francis Bordeleau

- Establishment of Papyrus IC Research/Academia has been delayed by other priorities
- Now need to put main priority on it
 - o Make sure that we don't miss key opportunities to introduce Papyrus for teaching next Fall
 - o Properly prepare for key announcement at the MODELS Conference in Saint-Malo at the beginning of October
- Working on involving new people in leadership roles
 - o More to communicate on this later this week
- Meeting invite for next teleconference will be sent this week
- Plan for the 2016H2 will be announced before the end of June

 - Organizer: Philippe Krie, Jean-Michel Bruel

6. Update on Papyrus for Information Modeling

- Tasks done so far:
 - Set-up project structure and build
 - Add support for collaborative modeling with EMF Compare and EGit
 - Identified an initial sub-set of UML from example models
 - Restricted sub-set of Papyrus palette to this sub-set
 - Added new "New Child" menu with restricted sub-set
 - Removed several unnecessary perspectives, views, and wizards
 - Added stubs for cheat sheet and welcome page addition
- These are the planned next steps:
 - Fix a few more glitches (e.g., hide empty wizard categories, etc.)
 - Clean-up plug-in structure (separate composable and non-composable parts)
 - Prepare code for being merged into Papyrus repo
 - Intensive testing and obtaining feedback --> list of additional improvements
 - Start with marketing-related tasks
 - Content for welcome page
 - Example models
 - Getting started tutorial
 - Cheat sheet
 - Work on further improvements from testing and feedback
