HTML5 FOR RESPONSIVE DESIGN
IOT user interface : local control
IOT user interface : voice control
IOT user interface: Smart Application
IOT user interface : chatbot

Hi

Hi there human

I need to build a bot, can you help me with that?

Sure, more bot friends for me! 😊

So why aren't you helping me?

You only asked if I can...
Switch off my room light, please...
Virtual assistant
Step 1 : Phone
Step 2: Telephony account
Step 3: Telephony system
Step 4: Develop your service

XML
Program Language (scripting)

AI Bot
Program Environment (natural language)
Global solution

Phone -> VoIP provider

Internet

Application (VoiceXML/AI)

Speech Ressources

IOT
Thanks

MERCI !
