Notes

Releasing of version 0.9 & next steps

- Release v0.9 has been released; An update of documentation will be uploaded soon
- In future, the GUI needs to be adjusted for better compatibility and updates regarding supported PCM formats (e.g. SQLite DB) need to be made
- Preview branch with OpenSCENARIO Engine and Mantle API Integration will be provided soon

ITK leaving the WG

A great thank you to ITK for the support in the working group during the past years!

Support of ALKS Scenarios by Scenario Engine

The ALKS scenarios have been shown with version v0.7. In the meanwhile the scenarios have been updated and compatibility is currently not given anymore. An update of the demonstration tooling shall be made, so that the current ALKS scenarios are compatible with openPASS v0.9. Further, it is the goal to support all ALKS scenarios after the migration to the OpenSCENARIO Engine and MantleAPI.

Outlook / Teaser for next SC:

Buzz words: Eclipse MOSAIC, die SET Level-Gitlab Ergebnisse, Pyoscx, Safety Pool...

Topics will be discussed in more detail in the next SC. Also a workshop will be planned.
