Minutes by Hans-Dirk Walter

Workshop with openADx

No feedback up to now from Andreas Riexinger (speaker of openADx) about interest in this workshop from the openADx working group. Hans-Dirk will follow up with him.

Participants of openMDM: Siemens, BMW, and Müller BBM will send a delegate, In addition Peak Solutions and Karakun will also participate with one or two delegates. Siemens' delegate might be a participant of the openADx working group.

Angelika's travel expenses to join the workshop will be paid by the working group.

Potential dates of the workshops are: 17.2., 20.2. und 21.2 at Eclipse office in Zwingenberg.

Uli proposed a web session with all interested members of both working groups before the workshop in order to fix the agenda. This will be fixed at the next SC-call.

Documentation (Architecture, User Guide, Website, Wiki)

Angelika mentioned a request of the AC for more comprehensive documentation (especially architecture) and proposed to improve / create user documentation.

Ralph offers translation services by Eclipse in case openMDM developer prefer to create documentation in German.

This type of tasks will be included into the backlog of openMDM and prioritised.
