

openMDM SC Call 22.04.2021

Attendees: Ulrich Bleicher (BMW), Gert Sablon (Siemens), Stefan Wartini (Müller BBM), Franz Wöhrl (Audi), Ralf Nörenberg (HighQSoft), Hans-Jörg Kremer (Peak Solutions), Florian Schmitt (Atos), Angelika Wittek (Toolkit Manager), Michael Plagge (Eclipse), Hans-Dirk Walter (Karakun)

Minutes: Hans-Dirk

Topics:

1. Reminder Anti Trust Policy

2. Future Setup of the Working Group

Result of the poll regarding willingness to join or stay in the working group if € 3.500 membership fee per year have to be paid showed that five companies are willing to pay the fee, one company will support the community by paying for contributions but will not be member of Eclipse of the working group. Some companies need more time to come to a decision.

3. Status Dev Team, Contributions, Milestones

Milestone 5.2.0M4 was released on March 29, 2021. The team is currently working on bug fixes and continuously improving the software.

4. Program Plan for 2021

Eclipse asks each working group to write up a program plan for the business year based on a given template. Michael will distribute the template among the SC members.

The attendees agreed that it is difficult to create such a plan before the future setup of the working group is decided. Nevertheless all consider it important to define and agree about strategic goals for openMDM.

The SC will discuss this topic at the next SC call. In order to stimulate the discussion Hans-Jörg will give a personal statement about Peak Solutions' view on a vision for openMDM (10 minutes in the beginning of the session).

After talking to ASAM e.V. Michael informed that there will be no ASAM International Conference this year. Thus, there will be no opportunity to spread the word about openMDM in this community.

Next SC call: May 12th, 2021, 14:30 - 16:00
