

# openMDM SC Call 13.01.2021

Attendees: Gert Sablon (Siemens), Angelika Wittek (Toolkit Manager), Stefan Wartini (Müller BBM), Kartiki Despande (Tata), Tushar Ashok Gajare (Tata), Florian Schmitt (Atos), Michael Plagge (Eclipse Foundation), Paul Buck (Eclipse Foundation), Hans-Jörg Kremer (Peak Solutions), Hans-Dirk Walter (Karakun)

Minutes: Hans-Dirk Walter

1. **Reminder to Anti Trust Policy**
2. **Introduction of Michael Plagge** who joined Eclipse Foundation recently as new responsible for Eclipse Automotive WGs and successor of Ralph Müller. Michael will take over Paul's tasks with respect to automotive WGs over time.
3. **openMDM 4 to openMDM 5 migration:** Tata wants to migrate openMDM 4 applications to openMDM 5 and faces some issues in this respect. Therefore, they ask for support by the service providers of the openMDM WG.
4. **Status Dev Team, Contributions, Milestones** - node provider nearly finished. Next release can be scheduled.
5. **Move mdmbl project to new Toplevel Project "Automotive":** As a consequence of moving „mdmbl“ to a new top-level project „automotive“ it would get a new PMC. The project might also be more visible in the automotive community within Eclipse, stronger synergies between automotive WGs might be achieved, and this might also speed up processes because there are less projects to be managed than in the technologies top level projects.

The proposal to move „mdmbl“ to a new top-level project „automotive“ was accepted unanimously by all attendees.

6. **Deprecation of existing GIT repository** - decision required whether to migrate the repository to Gitlab or Github. Schedule when this migration needs to take place is unknown for now. Gitlab is hosted in Switzerland. Angelika will investigate with other projects how much effort this migration will create in both cases. Eclipse Foundation will not incur any additional costs.
7. **Further planning:** Extraordinary meeting for discussion about future of openMDM to be scheduled for beginning of March. Angelika will set up a doodle. **Next SC call: February, 3rd 2021, 15.00h.**
