

AutoRefactor

- Site web : <http://autorefactor.org>
- Update site : <http://autorefactor.org/nightly>
- Source code :
<https://github.com/JnRouvignac/AutoRefactor>
- Easier maintenance
- Leaner and more compact code base
- Performance improvements

Usage

- Shift+Alt+Y
- Project(s) / package(s) / file(s)

Demo!

Problems

- Essential
 - Automatically build the plugin
 - Automate tests run with JDT
 - JDT vs. Background jobs
- Nice to have
 - Run headless?
 - Automatically deploy to Eclipse Update site
